SANDRINGHAM
TESTIMONIALS.

From Mr. John J. Mahon, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.

From Mr. James M. Thomas, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.

From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."

From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

Phosphatine

It is well-known that no substances act so powerfully as a restoative on the brain and entire system as Phosphates, but the great objection to their use heretofore has been the nausea, heaviness and at times excitability produced by their use.
Professor G L Austin, M.D. Boston, is the first and only one who discovered and formulated Phosphatine, a preparation that produces perfect digestion and tones the entire system, nerve, bone, muscle and tissue—which a diseased body requires.
It may be termed the great 'Brain Strengthener' and no safer, purer, more palatable or more effective preparation has ever been offered to sufferers from mental or physical debility.

Mandrake

Is recognised in the United States as the great vegetable substitute for mercury (see American Dispensatory, page 720.
The first to utilise Mandrake (Podophyllin) and present it to the public in a convenient form, was the well-known Dr Schenck of Philadelphia, whose famous MANDRAKE PILLS, are replacing all other purgative medicines throughout the U. States. They act speedily and efficiently without producing sickness at the stomach, nausea, or griping; arousing the liver to the due performance of its functions and may thus be termed a specific for the many ailments engendered by a torpid or diseased state of this organ, from which so many are suffering in the River Plate.

LATEST NEWS.

PRESS TELEGRAMS

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—

Montevideo 15

Baron Cova expected back here to-morrow to bring the Government to book for the terms of the Message to the Chambers in reference to the Volpi arrangement.

Montevideo 16.

Minister Cova's note is an energetic diplomatic protest against the erroneous assertions of Herrera y Obes, Minister of Foreign Affairs, in the Message presented to the Chambers. Baron Cova demands an immediate rectification of these assertions.

Volpi and Patroni have not been summoned to Juzgado.

Military Fiscal refuses to answer the Tribunals or allow them to meddle in any way with the arrest of the officers, which he considers to be a matter solely for the military authorities. His note to the Judges smacks strongly of the tented field and the canteen, and shows a true military contempt for the Civil Tribunals.

The Message about the Volpi arrangement has caused an earthquake sensation, as it shows that either Baron Cova or the Oriental Government is a liar.

Count Bissio, Secretary of Italian Legation in Buenos Ayres, arrived here to-day and immediately delivered Baron Cova's note to Herrera y Obes. The Count has imperative orders not to leave Montevideo without a categorical answer from Minister Herrera.

San Luis 15

Mr Villanueva, Manager of the Andine Railway, arrived here to-day on a locomotive. Great joy amongst the people, who want the Minister to order trains to run at once, to suppress the terribly severe journey by diligence from Fraga.

Tandil 15

Engineers have returned here, having completed surveys for branch of Southern Railway from Ayacucho to this place.

Montevideo 17th

Government will stick to the Message and retract nothing whatever.

Nobody can foresee how this affair will end.

Races yesterday splendid, and tremendous betting; Winners were 'No te descuides,' Don Quijote, Terror, Ssntos Vega, and Druid. Santos party lost heavily.

Parana 16th

Maypu arrived last night. President landed at 10½ a.m. to-day

Parana 17th

President started to-day for Santa Fe and will pass the whole day there.

ARGENTINE CREDIT ABROAD

The French mail has brought us our exchanges from London, and we find in one of the great financial organs of the world's capital the following remarks on the Argentine Budget. We have no doubt, Dr. Romero, our talented Minister of Hecienda, will read with much interest these remarks, which come from an impartial, influential and friendly source. We for our part fully agree with our London colleague that the debt of the Argentine Republic, considered in respect to its vast resources, is most trifling, and that with economy and caution on the part of the Argentine Government the credit of this Republic will soon rank in London as high as that of any other nation. All the London papers are filled with traffic returns and other remarks on Argentine railways, stocks etc, and we rarely remember a mail bringing us more favorable advices from Europe than the Senegal just entered:—

'The ordinary expenditure voted for the year 1882 by the Argentine Congress is $f. 26,529,746, $f 6,793,344 more than in 1881, besides which are extraordinary votes of $f 1,617,504; leaving a deficit of $f 2,516,254.

This deficit may be small by the side of previous ones, and there may be no real deficit deducting the heavy sinking funds, but it is a pity any deficit occurs. Such a country, where prosperity has so strongly set in, ought to be enabled to make its revenue balance its expenditure, and until this is done the Argentines may be sure that their credit will not take the stand to which it is properly entitled.

The whole debt of the Argentine country is extremely light compared with its resources, and the sinking funds have rapidly discharged the principal of the several loans. The 1868, the 1871, the Hard Dollar, and the 1824 loans amounted originally to £15,600,000, of which upwards of £6,000,000 has already been paid off by means of the sinking funds, leaving those four debts at 9,600,000. All the debts of the country, including the last railway loan for £2,450,000, amount to about £19,250,000, the charge for interest and sinking fund being as much as £1,700,000 a year. It is estimated that nearly £700,000 a year might be saved by the issue of a new £20,000,000 loan bearing 5 per cent interest for the consolidation of all the existing loans. No doubt a very large sum might be so saved, but how can a great consolidation loan be floated on advantageous terms while the expenditure exceeds the revenue!

A large part of the debt is for the construction of railways and other useful public works. It is desirable, however, that the Government should not go too fast in this beneficial course, and it may be as well for them to consider whether a better could not be struck out. It should be an object of the highest importance to advance the credit of the country to the greatest attainable point, and this can never be done so long as a deficit of any amount disfigures the accounts.

TRIP TO UPPER URUGUAY

LETTER IV.

The Eastern Argentine Railway runs through the most beautiful, most picturesque, yet most most neglected portion of this Republic: rich grassy woodlands, hill and dale, and such rivers; yet although endowed by nature with her choicest gifts, the lands are not stocked. Industry, except in the nandubay post line, seems barely to have raised her head, and the very bogs of Ireland yield more to the hand of man than the inexhaustible pasture lands, watered by the Upper Uruguay, Mandisoti, etc. As cattle estancia lands, we should say, they are perhaps unsurpassed by any others on the face of the globe. The widow of Gen. Urquiza owns a property four leagues frontage on the Uruguay, with five leagues depth, and girded on 3 sides by rivers, which, if in Buenos Ayres, would be considered cheap at 80 millions currency, yet portions of it are lying idle, and others rented by the league at a less price than that of a single Irish sheep 'puesto' in this province. We shall reserve, however, for a future chapter our remarks on these lands, our task to-day being to tell our readers of the Salto Grande, or great falls of the Upper Uruguay, which we visited under the shiny influences of a grand pic-nic, given by Mr Bouwer. We left Salto at 8 a.m. in Mr Hardy's little steamer and found at the railway station in Concordia a special train waiting to take us to Gualeguaycito, a point facing the falls and but a league distant from them. As bad luck would have it, Concordia was turned inside out that morning by the revolution, and we were deprived of Mr Smart's company, as telegrams were flying to and fro every minute, and he was obliged to stand by to be ready for any emergency. The news as we left the station was that Monte Caseros, the place we had visited the day before with Don Juan Antonio Fernandez and Mr Alfred Bean, was surrounded by 700 rebels and momentarily expected to be sacked: Our party consisted of Mr and Mrs Bouwer, Mrs Treacher, Dn J A Fernandez, A Penard, M Wilkinson, O Budge, M Kaly, A Bean, &c. It was indeed a glorious morning as our express train dashed out of Concordia: we were all intent on a days' enjoyment, spite of the news of the revolution, and not one of our party carrying any other weapon than a small American hatchet, to cut our way though the wood, and a pocket corkscrew. All about scenery, saladeros and camps we passed through I leave for another letter, Mr

nard, who on such occasions a is Tamagno 'ambulante', kept us all alive with his racy songs and a peculiar way of humming tunes that really sounded in the railway coach like a cornopian or Kent bugle. We ran out the fifteen miles to Colonel Francio's estancia, our halting place, in about half an hour, and found, as we paused in the open camp, a dog cart and various saddle horses in waiting, As, however, there were more tourists than horses and the distance to the falls was but a league, I started off on foot in company with Mr Fernandez and A Bean. The hills were high and we could not see the river, but Budge told us to bear off for a ñandubay bush on the top of a distant hill. We started and had hardly proceeded a mile when a dispute arose between Mr Fernandez and Bean as to our having lost oua way. We were now down in a valley and could see none of our party and only the grass, sky and bushes. I held my tongue and kept to walking. Don J A said it was better to go back and make for the train. Bean argued that if we kept on as we were going we should fetch Mocoreta before night. I suggested that we should sit down under a tree and wait to see some horsemen crossing the camp; the luck was that we were not heavily loaded with baskets or bottles. Bean sat down on a cow's head and Don Juan Antonio on the stump of a tree. It is strange, how on such occasions the most disagreeable topics crop up; 120 men had been that morning called out to fight the rebels, and suppose they came up and caught us, as the night before the Sergeant had caught us and arrested us in the little steamer. I told Don Juan Antonio of how I had saved Don Saturnino Unzue's life in Montevideo, and of the 1,000 cows he offered me on halves for San Blas. The country looked lovely and the day was a glorious autumnal sunshine, still my companeros professed that they didn't care much about camp life, the whole place was a desert, I was just about to argue the point when we descried a horseman on the top of the hill.

Mr Wilkinson rode down and offered Mr Fernandez his horse, showing us the hill top we had to cross; we had not gone much out of the way, and as walking on the soft springy pasturage was so pleasant we all continued our walk. When we reached the hill we could hear the falls and see the river; the dog-cart was sent back from the falls for us, and in a few minutes we drove down the hill at a rapid speed and reached the Niagara of the Plate. We pushed on foot through the wood and came on the very rocks, the ledge of the fall, where exactly 37 years before Garibaldi lost his vessel and sank his guns, which but a year ago were picked up by the peones on the estancia. With seats on the rocks beneath a centenarian algaroba, we opened our hamper and made a picnic spread; the day was very hot, and Mr Bouwer and Penard placed the champagne and beer in the river on ledges of rocks. Nearly all the gentlemen pulled off their shoes and stockings, tucked up their trowsers and leaping from rock to rock, now and then slipping in, reached the island in front, but the great falls were a few squares higher up, and to reach them we brought a board for the ladies. Messrs. Penard and Bean went off for a swim, but the rest of the party discussed the lunch, which was as good as if supplied by the Star and Garter at Richmond.

We drank to the falls, and Don Juan Antonio drank to the bright, beaming eyes that illumined the falls. Mr. Budge sang some amusing songs, and at last the ladies rose, and in Indian file we marched along the river's bank to the Salto Grande. The roar of the waters reminded us of the old weir at Shrule Castle.

The placing of the boards on the rocks, and getting the ladies into the middle of the stream, in order to have a full view, was a job so amusingly funny that it defies description—the gentlemen up to their knees in the water, and in parts of the falls if they slipped would be over their heads, the picnic bravery uf the ladies, the shouts of laughter that echoed over even the roar of the torrent. We were all boys again, hopping and skipping about on the rocks—a skip in and you were booked for in the rapids. We reached a point, with the aid of the board, where two torrents met and jumping over a huge boulder cast the spray over our heads, and here we paused. The scenery was simply enchanting. Away off on the other side we could see the Banda Oriental shore studded with timber, whilst on the Entre Riano bank the high hills of the estancia frowned over the falls. The whole valley lay smiling before us, and we doubt if in this country there is anything to surpass it in beauty; we had in truth the purest of crystal and brightest of green on all sides, and the bloom of nature possessed all the greater freshness for us, the whole scene being so new, so strange, and so unexpected. It was the Avoca of South America. We shall never forget that day, and as we sat on the rocks entranced with the bewitching sight, we thought with the poet that there is a certain soft magic in such scenes. Had there been a hotel near hand we should certainly have all stopped the night, but the shades of evening were beginning to fall, and we therefore hurried off to catch the train; we rode in the dog cart driven by an Indian, who stood at the foot board, in the style of the old Roman charioteers; the drive in that trap was a new experience. The more Mr Bouwer shouted to him 'despacio!' the harder he went and licked his horses; we made the league of hill and dale in about ten minutes, and the special train whipped us all off to Concordia. Mr Smart had a high tea spread for the party at the station and presented the ladies with two beautifully worked ñandubay mate cups, which as works of art are well worthy a place in our exhibition. It was 8 o'clock when we all sat down to dinner at the Hotel in Salto; all our cheeks were tinged with the day's sun and warm ruddy smiles after so pleasurable an excursion. At daylight next morning we all started for Buenos Aires.

VOLPI AND PATRONI INDEMNITY.

It is not correct to say that Volpi and Patroni refused to accept from the Italian representative at Montevideo the indemnity, the payment of which by the Uruguayan Government was one of the conditions exacted by Baron Cova. On the contrary, they accepted and gave a receipt for the money on the 13th inst, expressing at the same time their gratitude for all that Baron Cova had done for them.

The fact of their having subsequently distributed the money amongst various charitable institutions does not in any way affect the accuracy of the above statement.

EDITOR'S TABLE.

The week opened yesterday with breezy weather and brisk news from all quarters. All the daily bread men came into town yesterday covered with dust and looking as if they had forgotten their matutinal ablutions: It required a telescope to see ten yards ahead on the suburban roads, such were the clouds of dust.

The Senegale's mails were delivered on Sunday and yesterday. Our London Correspondent, whose Letter we must hold for to-morrow, says that the peace of Europe again hangs on a mere thread, as Bismarck feels much inclined to let things 'take their course,' so that Russ and Teuton may have that 'blood and iron' mill which General Skobeleff seems to wish for so much. Dr. Lamson has been found guilty of murdering his brother and has been sentenced to death. The news from Ireland is transcendent (beats hollow Lord Salisbury's turning Land Leaguer, as announced by telegram:) The Governor and Company of the Bank of Ireland are in treaty to purchase the site of the burned-down Theatre Royal in Hawkins' Street, so convinced are they that their present premises in College Green—the old Irish Parliament House, the most beautiful and classic structure in the Three Kingdoms—will be required for its original purpose before many years are about. The Governor and Company have never been known to make a mistake in bills, building, or anything else, so this news is truly significant. The House of Commons is to be lighted by the Electric Light. Oh 'Progress!' Last not least, Jumbo entered his travelling cage this day month, and a fashionable English paper makes the announcement that two daughters of Irish peers are now inmates of Irish workhouses, owing to the No Rent agitation, See Supplement for all the news.

The Volpi row has sprung up again worse than ever, and Italians and Orientals are now giving each other, through their representatives, 'the lie oblique,' if not 'direct' as it can be. This is truly lamentable and will have a very bad effect on our Immigration returns. It is this country, as we said before, that will suffer most by this disgraceful business. Banda Oriental has no Immigration to lose.

We took a short Editor's Table-like 'flan' through the Exhibition on Sunday afternoon, but forgot our note book and can not remember half of what we saw. However, memory's tablets recall to us the truly exquisite photographs on porcelain of Messrs Chute and Brooks, which are as soft as painting on ivory; the 'Brazero Economico,' the most diminutive and perfect cooking range for a small family that we have ever seen; the splendid display of machinery of all kinds by Messrs Forrester and Co; the wonderful collection of Chilian timber; the peculiar system of photographs of Messrs Witcomb & MacKern, all so clearly defined and soft; the beautiful finish of the photographs by Mr Bradley (close by, in Fine Arts Section) and a collection of most deliciously scented and astoundingly cheap soaps, to be seen in that spot known as 'Sheil's Corner,' where, in an oak barrel, bound with solid gold hoops, our enterprising neighbour and countryman exhibits the first rum ever made in this country, and which the most competent connoisseurs praise highly. The Exhibition is now in capital order; all the Sections in full fig. At a moderate calculation it requires fifteen or twenty visits (at $10 m|c each) to 'do' the Exhibition thoroughly, and the money is well spent.

The latest accounts about the Douro report all the surviving passengers as picked up off Vigo when making for land in the boats. The lost are 5 passengers, ten of the crew, and *all* the officers, What a testimony to duty nobly done this little word *all* is? God rest them. The Rio papers say that Mr O. Haupt telegraphs that he is safe: also Mr Herfurt. Mails also saved. Fifteen persons lost in all, between both steamers. Another paper says that only one passenger and three officers of Douro were lost. The passengers still missing are Pontes, Camara, Allan, Weaver, Jell, S. Monte, Perkins, Schwind, Bernard and Miss Thomas; Camara's family saved. Another telegram says 25 people of Douro were lost. Another, from Paris, says 17.

We received a compilmentary letter yesterday on our remarks about the new provincial capital. We believe that no man in the country, with an ounce of brains, can for an instant suppose that all the gigantic projects in reference to a new chief town for this province are feasible. All attempts to "build Rome in a day" have hitherto failed, and this must fail also.

There was not a spark of fun in the proceedings at the Pedagogues' Conference on Saturday. On the contrary, everything was 'muy serio', and Mr Torres's address was listened to with the very keenest interest and greatly applauded. Mr Navarro Viola resigned his seat in the Conference.

The latest phase of the Sanchez Caballero difficulty is that the defunct was a Paraguayan citizen, not a Spaniard, and that King Alfonso's Minister has, therefore, no right to pester the Oriental Government about him, dead or alive.

There is balm in Gilead yet. The Government intends to allow some more time for presenting claims to the Contribucion Directa juries.

There was a blow-up at the Laurencna Saladero, Gualeguay, last week. Boiler of engine burst and killed one man.

The Fencing bouts will commence at the Exhibition on the *Standard's* birthday.

The Police Commissary at Mercedes, Mr Saturnine Nadal, was deprived of all his best private clothes and much jewelry last week by a clever thief who entered his room while he slept. There can be nothing half so sweet in life to a robber, no, not even Love's young dream, as to plunder a Police Commissary; the more so when all the victim's professional acuteness has failed to hunt down the delinquent.

There will be a benefit at the Politeama to-morrow night for Volpi and Patroni.

The Argentine Navy is to be increased again. Two swift cruisers have been ordered in England, also two training ships.

A colleague says that 'La Plata' has been selected as the name of the new chief town of the province as a playful hint to the taxpayers of all the 'plata' it is intended to squander on the chimerical scheme.

The news from Cordoba is of great heat and a terrible drought all over the province.

Some of our evening colleagues refer to a case of 'Grahamising' in the Corrientes Post office. 'Tout est possible' in that patriotic province.

Piles of Provincial newspapers were delivered yesterday. Over and over again we have come to a resolution to treat all provincial exchanges as the Chambers treated the Governor's Message about 'La Plata'—viz, to take them 'as read,' as there is never a line of news in a ton of them. We violated our resolve yesterday, and found one grain of the commodity, to wit, that there is an immense development of agriculture in San Luis, owing to the rails way. A thousand squares of wheat have already been laid down on the river alone. Not bad for a beginning.

Dr. Homan, the eminent physician of Rosario, will leave for that place to-morrow morning with a cargo of vaccine matter. No wonder Rosario enjoys comparative immunity from smallpox. Jenner himself could not watch the fell destroyer with more lynx-like eyes than Dr. H., who has imported more vaccine matter into Rosario from time to time than all the rest of his confreres there.

The Customs officials seized on Saturday a lot of wax matches contained in boxes with pictures on the lids of such a kind that even a Waterloo veteran would blush to the roots of his moustache at them. The tide-waiter who opened the cases fainted right off at the sight of the first box. The importers, in spite of this tragic incident, say they see nothing wrong in the pictures. Oh! Mr. Civil Under Secretary of Finance, has been appointed umpire in the matter. The tide-waiter is still in bed from the shock to his nerves.

There is another horrid story up from Montevideo, where two youths fought a duel with shoemakers' knives and nearly hacked and stabbed each other to death. The worst of it was that several men witnessed the fight but made no effort to stop it, or even call the police, till the two boys were at death's door.

Mrs. Belgrano, (nee Emelina Molina) while standing with her husband at the Parque station on Thursday evening, accidentally fell under the train in motion, and was fearfully injured. The young couple have only been a few days married.

THE NEW CAPITAL.

To the Editor of the *Standard*.

Sir,

Allow me to congratulate you for the crushing leader in last Sunday's issue, entitled 'The New Capital.' All the newspapers that I have read condemn Governor Rocha's thousand and one projects respecting the new Capital for the Province of Buenos Aires, but none of them have hit the nail so fairly on the head as your leader.

Ridicule kills a scheme more effectually than any other argument, and you have placed Governor Rocha's plans in such a ridiculous light, that if you follow up *your* plan he will be eventually obliged to withdraw *his* scheme.

It is surprising that a majority of the Rural Legislature would lend their names to such a farce and allow themselves to be made the laughing-stock of every sensible man in the Republic.

If the rural authorities had really a desire to move their bag and baggage to any capital other than the city of Buenos Aires, stern duty, without even a spark of love of country, would point out one of the fifty cities and towns already built and ready to receive them. The millions they propose throwing away, or throwing into each other's pockets, would be better spent in making railroads.

The apathy of the unfortunate tax-payers in the country districts is astonishing; they elect representatives under a tacit understanding that the taxes will be reduced These representatives take their seats in Chambers, and by way of complying with their electors' wishes to reduce the taxes, they vote themselves a double stipend in the first session, increase the old taxes and add new imposts to the long list. They would not attempt this mockery if the inhabitants of the camp were more united. Want of union places their hard-earned money in the pocket of the tax-collector. This apathy must end one day or other; when the last straw is added to the load, the campmen will petition to annex the province to the city of Buenos Aires, federalizing all, and declaring that the only government they require is a good police, under the jurisdiction of the President of the Republic.

The interests of the country cannot afford the luxury of a rural Government more pretentious and more expensive in proportion than the National Government.

If I were a member of the General Brown Club, with sufficient interest to carry a majority, I would make the banner of the club:—

'Federalizacion de toda la Provincia.'

In so doing, I believe I would honestly serve my country and its interests.

It may not be amiss to add that, in going thus far into a political subject, I speak as an Argentine, It is true my name does not end in ez, but I claim, nevertheless, all the rights and privileges due to a Fernandez, Hernandez, Gomez, Suarez, Gutierrez, Rodriguez, or any other ez born in the country of my birth, dear, dirty Buenos Aires.

Henry S. Kelly.

DEBT COLLECTING.

To the Editor of the *Standard*.

Sir,

Saturday has become by custom the general cash or collecting day in this city, the most disagreeable day of the week for many of us who have then to hunt up the tardy payers.

Only those who have tried this work can imagine the vexatious delays to which a hard-up or unwilling debtor can submit merchants.

Now, I presume, that the Argentine Commercial Code,' like that of all other civilised countries, provides some means by which payment can be enforced, but the fact of this being very rarely enforced for moderate debts, seems to show that such a law is a dead letter, or that it is too slow and expensive to be of practical value.

I need not enlarge upon the great importance of laws of this kind, which is self-evident, but I may point out that the want of some such efficient means of enforcing payments is the means of restricting the blessings of home and marriage to many of us poor clerks, because the furniture dealers and others give this as a reason for not adopting the 'hire system,' now so prevalent in England, where it has proved so great a convenience and often a blessing.

Having recently read with much interest the letters on 'Law Expenses,' which appeared in your columns from the pen of your learned friend, Mr. B. Bertie Marriott, solicitor, it has struck me that he might be so kind as to give us some information on the above-mentioned want.

I remain,
Yours, &c.,
Collector.

ON 'CHANGE.

April 17th

Patacons	25.—
Cedulas A	101
Do E	85½
National Bank Shares..	111½
National Bonds 1863 ..	87

The week has opened with a tremendous fall in National Bank Shares; the whole ring selling, in fact they could not sell all they offered, and when prices were 112 for end of month we heard men at the ring offering to buy at 110. The movement in the stock is very great, but although many parties look for a tremendous drop, from the experiences of the market we should say that it is not improbable that the wind will change and the whole Bolsa become buyers, prices running back before Saturday to 117.

We hear that on Saturday one of our gold brokers sold outside the Bolsa fully $f.3,00,000 gold at 1¼ cent premium; nothing, however, was quoted on the board.

In Cedulas very little done; Series A firm at 101. Series B sold to-day at same figure, and Series E at 85½.

National Bonds one sale, 3,000, at 87.

National Bank Shares opened with a tear in their eye at 113¾ for end of month, jumping down, down, down at every sale until reaching 111½ at which they closed. For May they were sold still cheaper at 111¼. Total business done 5,435 shares, not to say a large amount in the midst of such hot excitement. They say that all the Italians are selling, and that the Syndicate is shivered, each man going for himself, meanwhile we learn on good authority that the speculators are engaging money for the end of the month to hold the stock, and money is so much more easy in the market now than at the end of last month, that it is probable at 12 o/o they will get on the stock at 90 all they need.

Captain McLean's new iron steamer, the magnificent 'Straits of Devon' is finding shareholders in this market, owing to the very high esteem Captain McLean enjoys here; we hope to salute him next season in his new steamer.

Every one on Change was in good humour when it began to drop rain: the weather is proving a little too dry for the farming interests.

The sale of a fine estancia in Santa Fe, for 45,000 pats is reported, the price shows how lands in Santa Fe are advancing.

At after hours there was an auction sale of 1 Flores Road share sold at $1,350 [27 o/o] the par of the shares is 5,000 m/c, but last year they sold as low as 1,000 m/c each, the price to-day therefore shows a rise.

The sales at the ring were as follows:—

Gold—
No operations.
Cedulas—
For cash A 3,500 at 101
For cash B 3,500 at 101
For cash E 6,300 at 85½
Sales, 12,500.
Nat. Bank Shares—
For cash 10 share at 111½
For April 30th 3,500 shares 113¾-¼-113-112¾ to 112¼-¼-112-111¾-¼-111½ to 112
For May 31st 1,920 shares 113-112¾-¼-111½ to 112
Sales, 5,435.
National Bonds 1863—
For cash 3,000 at 87
By auction at afterhours—
Flores and Gauna Roads Shares—
For cash 1 shares of $f.2,000 at 27

At afterhours there was increased excitement in the National Bank Share market, and prices tumbled to 110, when they appeared to touch bottom, several new parties buying; some 4,000 shares bought and sold closing at 5 o'clock at 111 buyers for month, and 112¼ for end of May.

In other stocks nothing done.

Exchange on Rio nominal at 11:400. On London many drawers at 49¾ and about £20,000 passed at that rate, also done at 49⅞ On Paris 5.19-18, and on Antwerp 5.20.

In wool not much done this morning: people waiting news from Antwerp, where public sales begin to-morrow with 18,000 bales. At the Once this morning 8,000 ar. in, and nothing sold.

The receipts of the Exhibition for the first month are splendid, amounting to $1,270,000 m/c, against $150,000 m/c expenses A few such months and the shareholders would be on the right side. The gas expenses nightly are $3,600 m/c.

Great talk on Change of a change in the Ministry; they say War Minister resigns and Iriondo will enter for Interior, Dr Irigoyen, go back to Foreign Affairs, Dr Plaza go to Hacienda, Dr Romero Education and our countryman Mr Wilde take War; the affair seems only to be mere Bolsa rumour.

400 pipes tallow, rest of fauna, sold at 14 rls Rocca and Repetto's saladeros.

Telegrams from New York say all white pine sold there for home consumption at 28 pats.

At the National Bank to-day, large furniture van loaded with specie, we suppose for National Treasury.

Parties on Change remarked that standing by the Post Office Bolsa letter box was an individual with a key, who opened the box every time a letter was thrown in, Quere what's up?

Major Rivadavia is in command of the Argentine gunboat Constitucion; he leaves on 25th for San Blas and takes down buoys to place in the channel. Lieutenant Gowland is an officer on board.

On Saturday there was a seizure in the Custom House of a large lot of boxes, wax matches with the most immodest pictures, the Municipality having prohibited the sale.

The farmers in town for the Exhibition say that the camps are very dry and rain is badly wanted; the lambing season so far is splendid, and all the flocks are full of lambs, but the grass is very dry, and the rain is much required; if it rains now, it is probable that the winter the grasserias will begin working, as there is no demand for all the capones in the country. In almost every flock in the North and West there are capones for sale, and in the very best condition.

The sale of ten square leagues in Guamini for over one million of dollars, and which cost the owner in the year 1878 but one hundred thousand dollars, has awakened the market to the splendid profits some parties are realising. The sale in question is in every sense remarkable, since the seller is not a country estanciero or rich native capitalist but an English merchant, who with faith in the country and great foresight as to the future of the South, subscribed for the Rio Negro loan, took ten leagues of land at the rate of 10,000 m/c per league, and had the land located at Guamini. The extension of the Southern Railway to Bahia Blanca will, according to the map in our office, bring these lands within a few leagues of the railway, and thus we may safely say that in a few years they will be worth three times their present figure. Mr Runciman is the seller, and we congratulate him on such a brilliant business, if he held on for a couple of years longer he might count on another million profit, but his gains as at present stand are splendid. The buyer is Dr Tardo.

The contract for the great sewage pumping engines for the City Improvement Works has been awarded to Messrs Eastman & Anderson of London, a very renowned firm in the engineering trade.

The French mails bring the following:—

"The traffic of the B. Aires Great Southern Rail. this week shows an increase of £1,514, although the mileage is now the same, and the fares have been reduced ten per cent. The extension last made cost much less than the average of the previously existing line, yet the enlarged system is taking per mile more than the old system, even with rates and fares reduced ten per cent, a reduction which was made on and from Sept. 15th, 1881. In the two weeks of the half year the traffic has amounted to £21,740 against £21,101, £1,600 more. The stock used to stand at 170 and above before the late issue of new shares. The latter of course are at a high premium, but how does the circumstance of this issue, beneficial as it is to the proprietors, justify the putting down the price of the old stock from 170 to 160, since it was at 170 before there was any talk of the extension or of the issue of the new shares? If the old stock was worth 170 then is it not worth 170 now? Is the dividend, with bonus, likely to be less than ten per cent per annum? Will the economically constructed new lines reduce the value of the property?"

The failure of Mr Luis Falcon, of Antwerp, was only known in London on March 9th, whilst it was known in B. Aires on March 6th. Ergo B. Aires beat London in getting the news.

It is proposed in London to increase the issue of shares of the City of Buenos Aires Tramway, we have received from London the circular, but for want of space must hold it till our next.

The Rio papers received this morning, give the following about the loss of the Douro:—

"The loss of the Royal Mail Steam Packet Company's fine steamer Douro on the 3rd, by collision off Corunña with a Spanish steamer, both steamers sinking, has caused a general sensation and sorrow. The Douro was one of the finest steamers of the line and her commander, Captain E C Kemp, was deservedly esteemed as a skilful and careful officer. Of the circumstances under which the disaster occurred we are still without information, although a rumour, whereupon based we are ignorant, asserts that it took place during a snow storm.

"Of the passengers from Brazil those missing at last telegraphic dates were:

"George Pain Jell, late of the Minas and Rio railway.

"Charles Schwind, of the firm of Edward Ashworth & Co.

"Harmstone Perkins, from Santos.

"Bernard W Flatt, from Bahia.

It is also feared that the commander, the officers and part of the crew have also perished, in addition to the loss of the mails, gold and cargo".

We may state that telegrams received in Rio report all the other passengers saved, save those mentioned in the list.

The brokers here may be interested in reading the following important decision:—

"A creditor of one of the Lyons stockbrokers has failed in an application to the Tribunal of Commerce to have a decree of bankruptcy issued against the defaulting debtor. The motives of the Tribunal were that the stockbroker had committed neither fault nor imprudence, but was the victim of a case of vis major, for which he was not responsible, and that as the rights of creditors were safeguarded by the appointment of a liquidator, a decree of bankruptcy would be an iniquitous act, and a perversion of the intention of the law.

The applicant was a lender of money for continuations".

Messrs. Oostendorp & Co., in their circular under date March 18th, report the following:

Much quietness has prevailed in our market during last fortnight.

The Bank discount rates remain here at 4½ per cent for accepted bills and 5 o/o for promissory notes whereas in London the official minimum was reduced on 9th inst. to 4 o/o.

Hides—
Imports, 4,300 dry R. Plate
19,400 salted do
Stock, 24,100 hides, viz:—
3,500 dry R. Plate
10,600 salted do
1,000 dry Rio Grande
4,200 salted Rio Grande
3,800 miscellaneous
900 horse hides.

Old salted R. Plate are moving off slowly at preceding figures; dry hides are in limited request.

Some sales 'to arrive' have taken place as particulars hereafter.

In Havre about 16,000 salted hides changed hands lately, partly for England, at firm prices and it is to be hoped that this will cause a revival of the demand here; the accounts from the consuming districts continue, however, very depressing, and many people apprehend a decline when the bulk of this season's supplies reaches Europe.

Dry horse hides are neglected, and the nominal quotations are: f.9-10 for prime heavy of 7 kilos; f.8½-9 for fair to good lots weighing 6½ kilos; about f.6½-7½ for desechos, and f.4-5 for foals of 3½ kilos.

Sales sum up to—
2,400 dry River Plate
6,200 salted do
200 dry Rio Grande
400 miscellaneous

and the particulars reported of the principal transactions in sound hides on spot.

On delivery—

Following transactions too place:—

1,076 B. Aires saladero ox, Lazaro Repetto, about 56 lbs, sp., expected per str. at f.70 for the 15-20 kilos, f.77 for the 20-25 kilos, and f.81 for 25 kilos and above.

2,239 Fray Bentos saladero cows, Liebig's, 47 74/100 lb. sp., expected per Florida, for which f.74 were asked, sold on private terms (probably f.73).

All the hides of 20-25 and 25-32 kilos to come out of 3,000 B. Aires saladero ox, 66 lbs. sp., Juan Repetto, Magdalena, expected per str. Minho, on private terms.

Floating Cargoes—

The sale is reported in England of—

2,155 old season Rio Grande ox, 70½ lbs, 957 do, 56 lbs, and 2,150 cows, 51½ lbs., expected per Johannes at 6¾d for heavy ox, and 6 1/16d for light ox and cows for Havre.

In Liverpool more activity has been observed and about 8,000 old season heavy Uruguay ox sold at 7-7¼d, tare 5 lbs.

Horse hides, about 5,000 salted found lately takers at firm rates.

Leather—

The Bristol fair held on 8th inst. passed off quietly.

In Germany the position of trade continues unsatisfactory.

The Senegal's Mails.

Loudon, March 18th

On Tuesday the trial of George Henry Lamson, charged with the murder of his brother-in-law at Wimbledon, was resumed at the Central Crimiual Court, before Mr Justice Hawkins, who took his seat at twenty minutes past ten o'clock.

Mr Montague Williams continued his speech for the defence.

The Solicitor-General having replied.

Mr Justice Hawkins commenced his summing at up ten minutes past two o'clock.

The jury returned into court at 6.35 p.m., after being absent thirty five minutes, and pronounced a verdict of Guilty.

Three warders had taken up their position behind the culprit, who clasped his hands together, and seemed for the moment in despair, he quickly recovered his self-possession, and as the Clerk of the Arraigns asked him whether he had anything to say, he folded his arms together, and in a clear voice, with eyes uplifted, slowly and deliberately replied—merely to protest my innocence before God. There was again another pause while the judge put on the black cap, and while his lordship pronounced the few words which preceded the sentence the prisoner remained with folded arms, but with eyes cast down, and leaning partly for support against the warders. He made a slight bow as the judge told him that it was his duty to sentence him to death. He again bowed as the last few solemn words were pronounced. His lordship having apparently finished, Lamson raised his eyes to the court and watched the judge eagerly as he added the announcement that he would be taken to Wandsworth Jail; then, half throwing himself back in the arms of his warders, he was almost lifted from the dock, the final scene of the six days' trial not having lasted more than ten minutes. The prisoner's wife was not in court during the afternoon. From the moment when she accompanied her husband to Scotland Yard, when she threw herself upon her knees and offered up a prayer for his deliverance, she has steadfastly refused to believe him guilty of the heinous crime charged against him, and during the trial she has been a constant attendant. It was noticed that the strain was almost too much for her, and yesterday she almost fainted. She continued in court to-day until the speech for the defence was concluded, when she was removed to a room in the building. It was, however, thought advisable that she should not be so near at the time the verdict was delivered, and her friends accordingly took her from the building when it was noticed that the judge was rapidly bringing his remarks to a close. The prisoner will be removed to-night to Wandsworth jail, where he will remain until the day of execution, the offence having been committed in the county of Surrey.

The prisoner appeared very restless during the last hour of the summing up, alternately leaning his head on his hand and watching each newcomer who came on the bench. He would first rock himself to and fro, then draw his fingers through his hair, and finally rested his eyes on the floor with a most downcast mien. As the judge commenced the last few sentences to the jury in unusually measured tones, Lamson several times endeavoured to catch the eye of his solicitor, but it was not until the jury had retired that he was enabled to speak with that gentleman. He retired below for a few minutes, and again reappeared in the dock for the purpose of signing several private documents of a pressing character. He did not stay in the dock more than a few minutes, but it was noticed that he showed great self-possession at the moment when the jury were in consultation to decide his fate, and his signatures to the documents were pronounced by those who saw them as being firm and bold in character. The usual hum was observed among the spectators until it was announced that the jury had agreed upon their verdict, after being absent from court 35 minutes. A period of painful suspense followed while the judge was sent for, the prisoner in the meantime standing on the top stair at the back of the dock awaiting his doom. There could be no doubt as to what the verdict was on looking on the faces of the jury; two or three had tears streaming down their cheeks, and most of the others were ghastly pale.

A considerable military force has been despatched by the Turkish Government to the Bosnian frontier, the object stated being to act in conjunction with the Austrian troops.

The Salvation Army were attacked by a mob at Portadown on Tuesday night, the members being stoned, thrown down, and badly beaten. An attempt was made to throw the Captain into the river. The mob afterwards broke into the Town Hall, where the Salvationists were holding a meeting, and renewed the disturbances.

The Queen has written a letter to the Home Secretary expressing her gratitude for the loyalty and devotion shown her in connection with the recent attempt on her life.

While the Mississippi floods have slightly declined in Tennessee and Arkansas, the water is still rising in New Orleans, where the work of strengthening the levees continues day and night.

The Legislature of Ohio has resolved to request President Arthur to pardon Sergeant Mason, who was recently sentenced to eight years hard labour for shooting at Guiteau.

The insurrection in Tunis has developed fresh energy, and French flying columns are being despatched to the Tripolitan frontier. The insurgents have proclaimed Ali Ben Khalifa as Bey.

The Press Association says:—A rumour is current that Mr Parnell is to be removed from Kilmainham to Armagh, Mr Brennan to Dundalk, and Mr O'Kelly to Monaghan. The Captain of the Salvation Army has been arrested at Exeter.

HER MAJESTY ON THE CONTINENT.

Preparations had been made for a month at the Chalet des Rosiers for her Majesty's arrival. Mr Henfrey had the house newly furnished in an artistic manner by a firm of upholsterers at Mentone. The chalet is situated 25 metres above the sea level, amidst a wood of olives and orange and lemon trees. It faces the sea, with Mentone on the right and the mountain which marks the frontier between France and Italy on the left. It is approached by a zigzag path called the St. Jacques, about 120 yards in length, starting from the sea. This route leads to the gardens of the chalet, which are designed after the English fashion, adorned with palm trees, orange trees, and rare exotic plants, the most beautiful to be found in Mentone. The chalet is constructed after the manner of the Swiss villas, with a terrace encircling the ground floor. The entrance is to the right of the chalet. There is a porch reached by marble steps. Thence one enters the vestibule, to the right of which is the Queen's dining-room, and to the left a small salon, the study of her Majesty. The two bay windows of the dining-room open on the terrace in the direction of Italy. The study contains a small elegant table in black wood, fringed with gold, which will be the workstable of the Queen, and also a large table, six chairs and a sofa. The bed-rooms of the Queen and the Princess Beatrice are on the first floor. A boudoir separates them. The furniture of the Queen's bedroom is in oak and bamboo. There is a magnificent bed, in the style of Louis XIV, and gilded richly, from Baden-Baden. It is the property of the Queen. The Princess Beatrice's room is furnished in like manner. On the second floor are five chambers, which will be occupied by the suite of the Queen. They are furnished in the same style, though less richly than the Queen's bedroom. On this floor, and looking to the front, has been constructed a sort of loggia, whence a splendid view may be obtained. As the chalet is not large enough for all the suite, two houses near at hand, namely, the Villa Henriette, and the Villa San Jose, belonging to M. d'Adhemar, have been put at their disposition. The Hotel des Anglais will also receive some of the suite. The Queen will remain in the chalet with the Princess Beatrice, some Ladies-in-Waiting, and her Secretary, General Ponsonby, until the 15th April.

A service of police, consisting of gendarmes two brigadiers, and a lieutenant, has arrived at Mentone from Paris. They are placed under the direction of a special commissary of police sent from Paris. Stringent orders have been given to prevent any approach to the chalet, and before the arrival of the Queen a cordon of police surrounded the villa. The adjoining villas were also occupied by the police until the last moment. A large crowd, principally English, awaited the train outside the Mentone Station, the entry to which was forbidden, and cheered lustily. The train proceeded further on to the special station near the chalet, arriving at a quarter past four, and was met by the English Vice-Consul. The Queen descended, smiling graciously, with a small bouquet of violets in her hand. The Princess Beatrice carried a gorgeous bouquet of the flowers of the country. On entering the Royal carriage they drove up to the villa, where Mr. Henfrey met the Queen, who after exchanging some words, retired to her chamber. The crowd then quietly dispersed. At her Majesty's desire the Municipality abstained from presenting an address, but offered her a splendid bouquet. The Municipality, at a meeting, has decided to have a grand fete in honour of the Queen and Princess Beatrice. There is great animation in Mentone, and many English flags are at the windows.

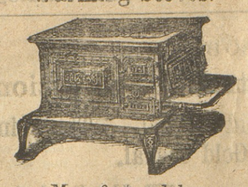
Ranges, Cooking and Warming Stoves.



Manufactured by

Abendroth Bros.

NEW YORK.

Only iron of the highest grade is employed in the manufacture of these Ranges, which for strength, durability and construction are incomparably superior to the ordinary class of stoves.

The only GOLD MEDAL awarded at the Paris Exhibition 1878 for this class of cooking apparatus, was taken by this firm; and, at the Sidney Exhibition 1880 in addition to the Gold Medal the SPECIAL AWARD FOR MERIT was given.

The celebrated 'Uncle Sam' series of ranges are reputed to be the most economical, effective and practical ever produced, and are sure to give satisfaction in every respect. Care being taken to replace the fine links and linings when burnt out, which are supplied as required, at a moderate price, these ranges can last and be kept always in perfect order for many years.

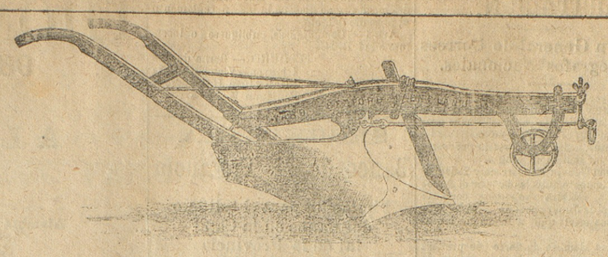
HOWARD'S CELEBRATED PLOUGHS



The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London

"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d.; boxes, 6d. and 1s. each. (a)
